

*Magical
Crystal
Farm*

Magic Crystal Farm is a GameFi metaverse ecosystem built on a Play-to-Earn participation model. Players interact with the platform through digital farming gameplay to generate on-chain rewards and ecosystem utility.

Play to Earn

Blind Box

Blind Box Cost.

- 100 USDT per blind box

Each blind box opening has a random probability of receiving seeds or in-game utility items.

Seed Reward Range.

- Minimum: 106 seeds
- Maximum: 117 seeds

Blind Box

**Mature
Land to
Earn**

**Land
Auction**

Limited NFT land plots are released through ecosystem auctions.

Land utility includes:

- *Planting crops*
- *Renting land to other players*

Land Price:

- *5,000 USDT per land plot*

Land operates as a scarce digital asset within the GameFi ecosystem.

Bet to Earn

Seed Amplifier

The Seed Amplifier is an interactive gameplay feature based on a POS (Proof-of-Stake) game pool model.

Players can:

- Participate in the gameplay system*
- Stake assets into the pool*
- Act as the game pool banker*

Referral Rewards

Users may earn additional rewards through referral participation.

Referral incentives apply to:

- Planting gameplay*
- Land ecosystem activity*
- Staking participation*

Generation	Reward %
1st Generation	30%
2nd Generation	20%
3rd Generation	10%

Seed List.

(Planting allowed twice per Day)

Seeds	Reward Yield Range
Tomato	106 -108 USDT
Melon	107 - 109 USDT
Grapes	108 - 109 USDT
Orange	109 - 111 USDT
Mango	110 - 112 USDT
Apple	111 - 113 USDT
Grapefruit	112 - 114 USDT
Coconut	112 - 115 USDT
Dates	113 - 116 USDT
Redwood	114 - 117 USDT

Planting Referral & Staking Income

Generation	Reward %
1st Generation	0.3%
2nd Generation	0.2%
3rd Generation	0.1%

ITEM UTILITIES

1. Fertilizer

Fertilizer improves land productivity.

Effects:

- Land fertility increases by +20
- Crop maturity occurs 4 hours faster

Mechanics:

- Each planting reduces fertility by 1%
- When fertility reaches 0, fertilizer must be purchased again.

2. Shovel

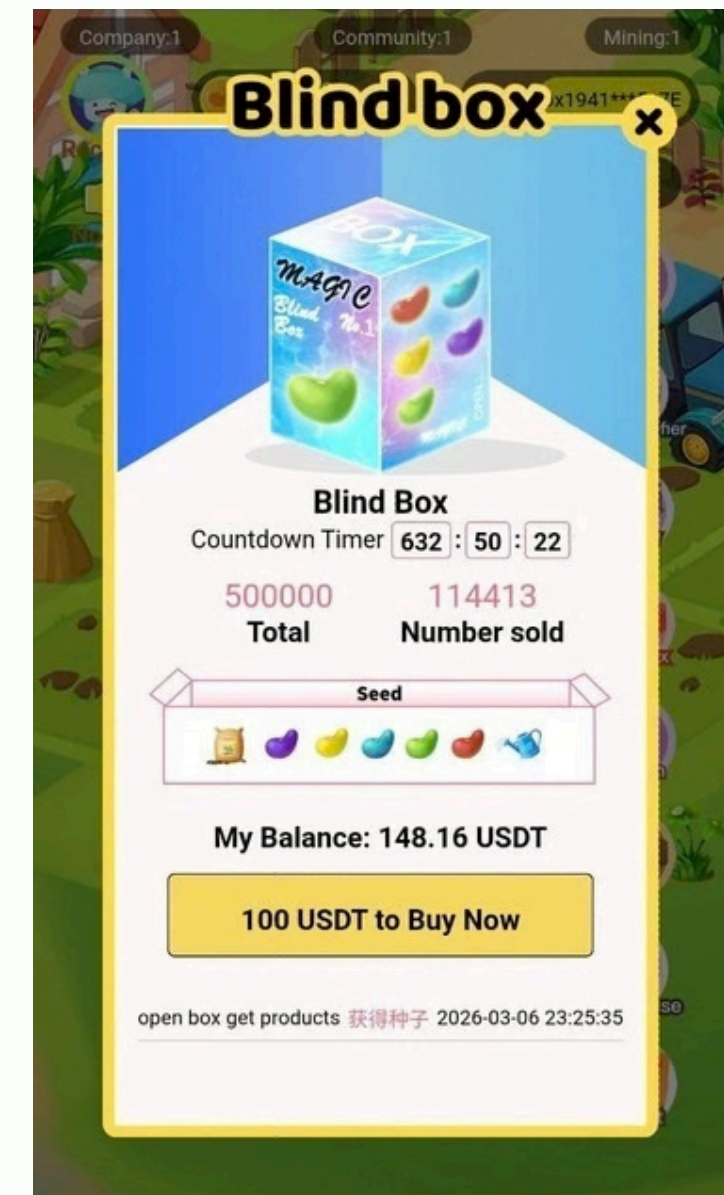

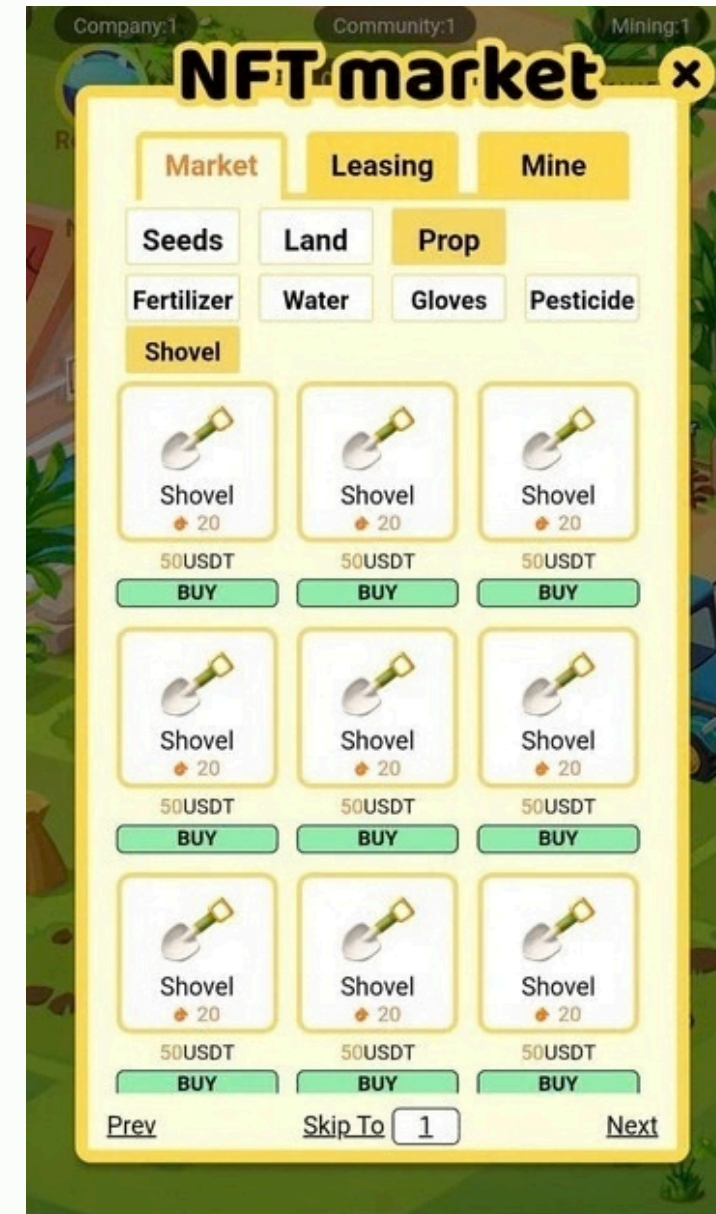

Used to remove planted crops within one hour.

If a renter removes crops:

- They receive 0.5% of current yield

Example:

$$106 \times 0.5\% = 0.53$$

3. Watering Tool

During crop growth there is a 5% probability watering is required.

If watering is not performed:

- Crop growth stops

Watering tools maintain uninterrupted crop growth.

Note: When watering is required, the system automatically triggers a real-time alert signal indicating that water application is needed.

4. Pesticide

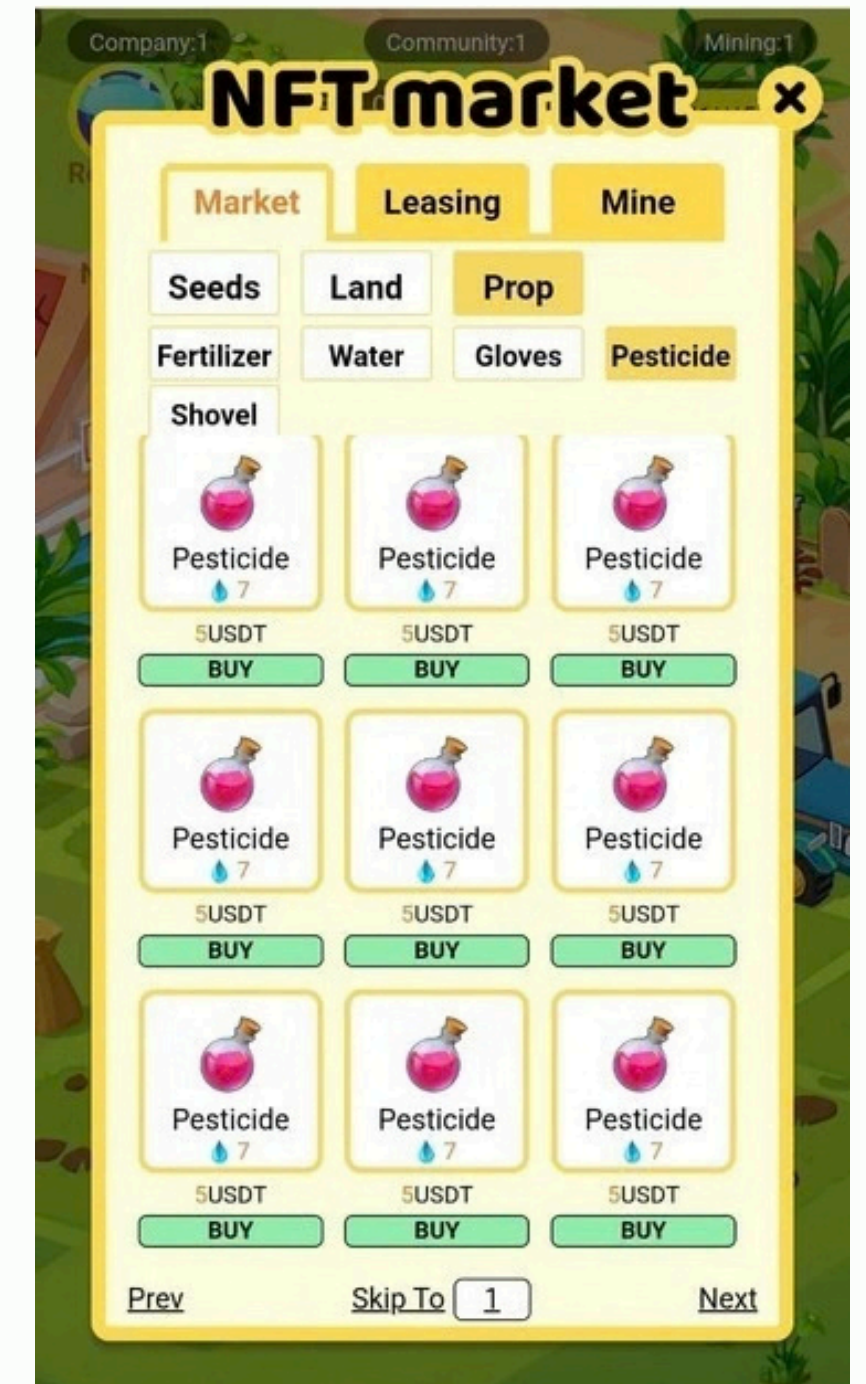

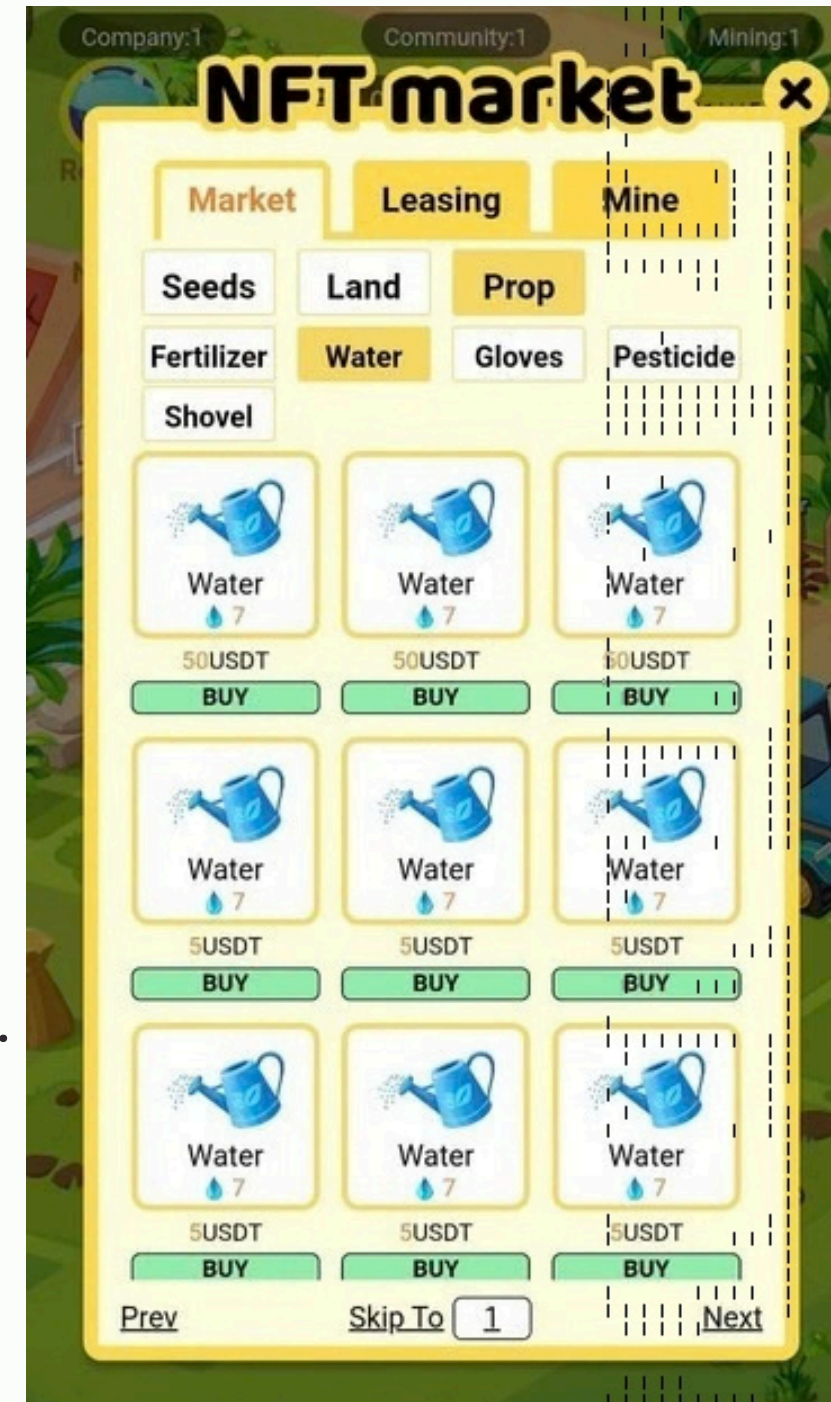

During crop growth there is a 5% probability pests appear.

If pesticide is not applied:

- Crop growth stops

Pesticide protects crops and maintains production.

Note: When pesticide intervention is required, the system automatically triggers a real-time alert signal indicating that pesticide deployment is needed.

5. Gloves Competitive Harvest

Gloves allow players to harvest crops from other players.

Usage Limit:

- 50 uses maximum

Each harvest captures:

- 1% of planted yield

Example:

$$106 \times 1\% = 1.06$$

6. Land Rental

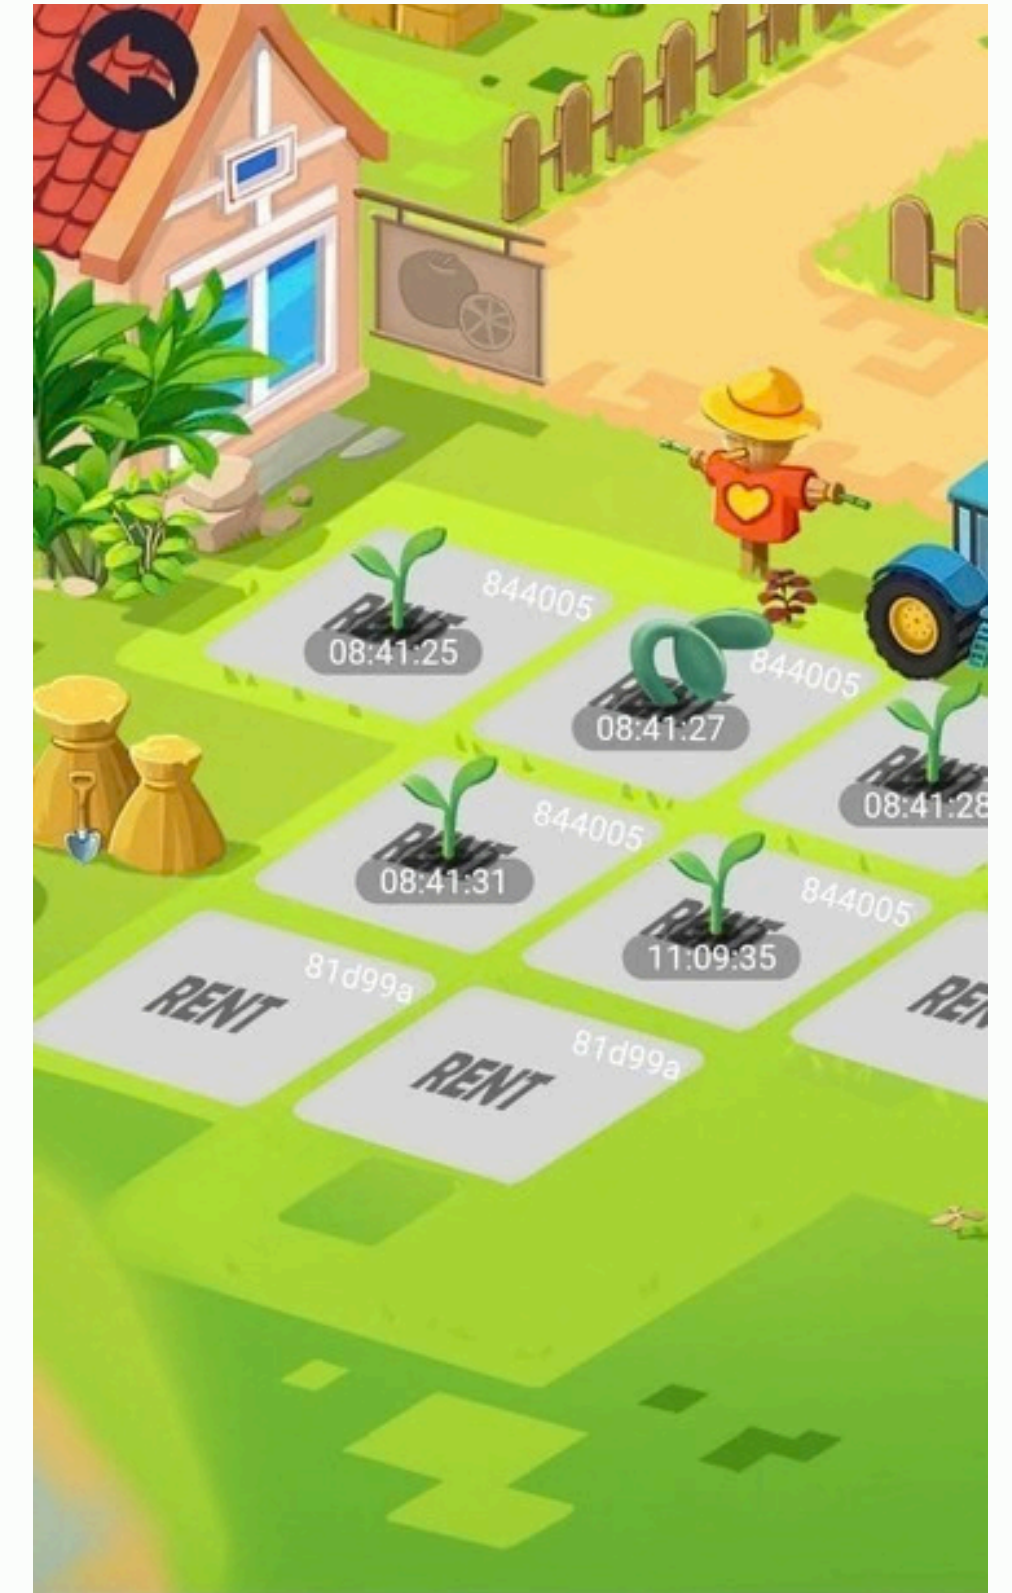

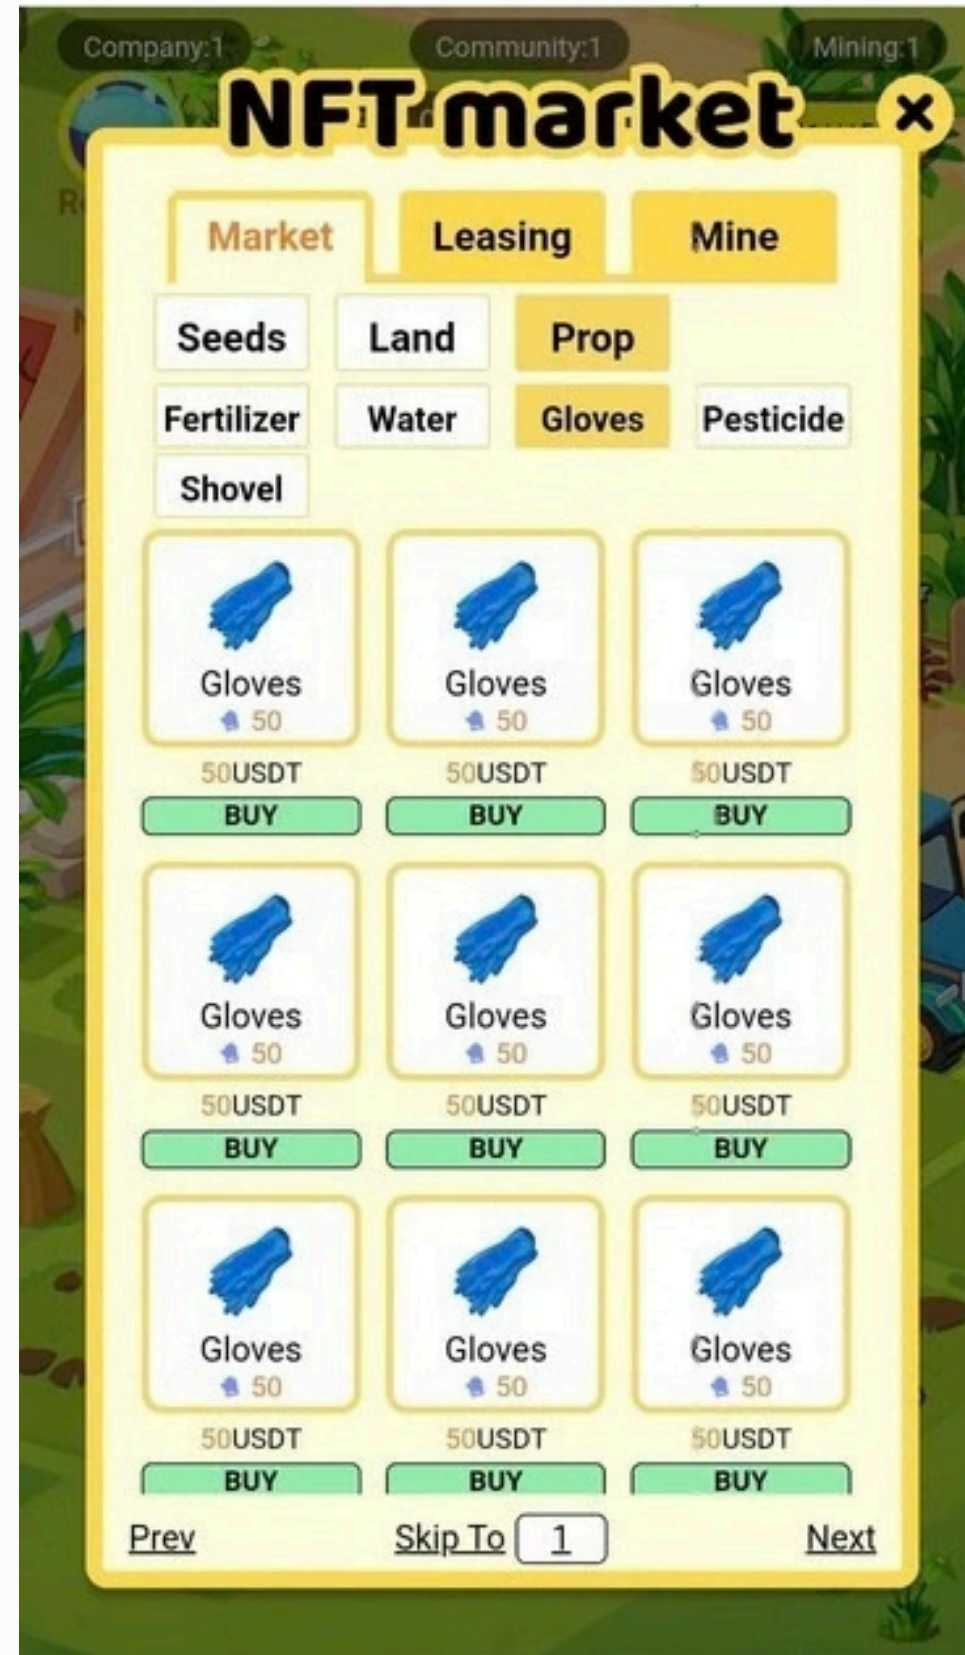

Landowners may rent land to other players.

Rental revenue:

- 4% of tenant crop yield

Example:

$$106 \times 4\% = 4.24$$

7. Land Auction

Land distribution occurs through auction.

Price range:

Minimum price: 5000 USDT

Maximum price: 7000 USDT

Instant purchase price:

- 5000 USDT

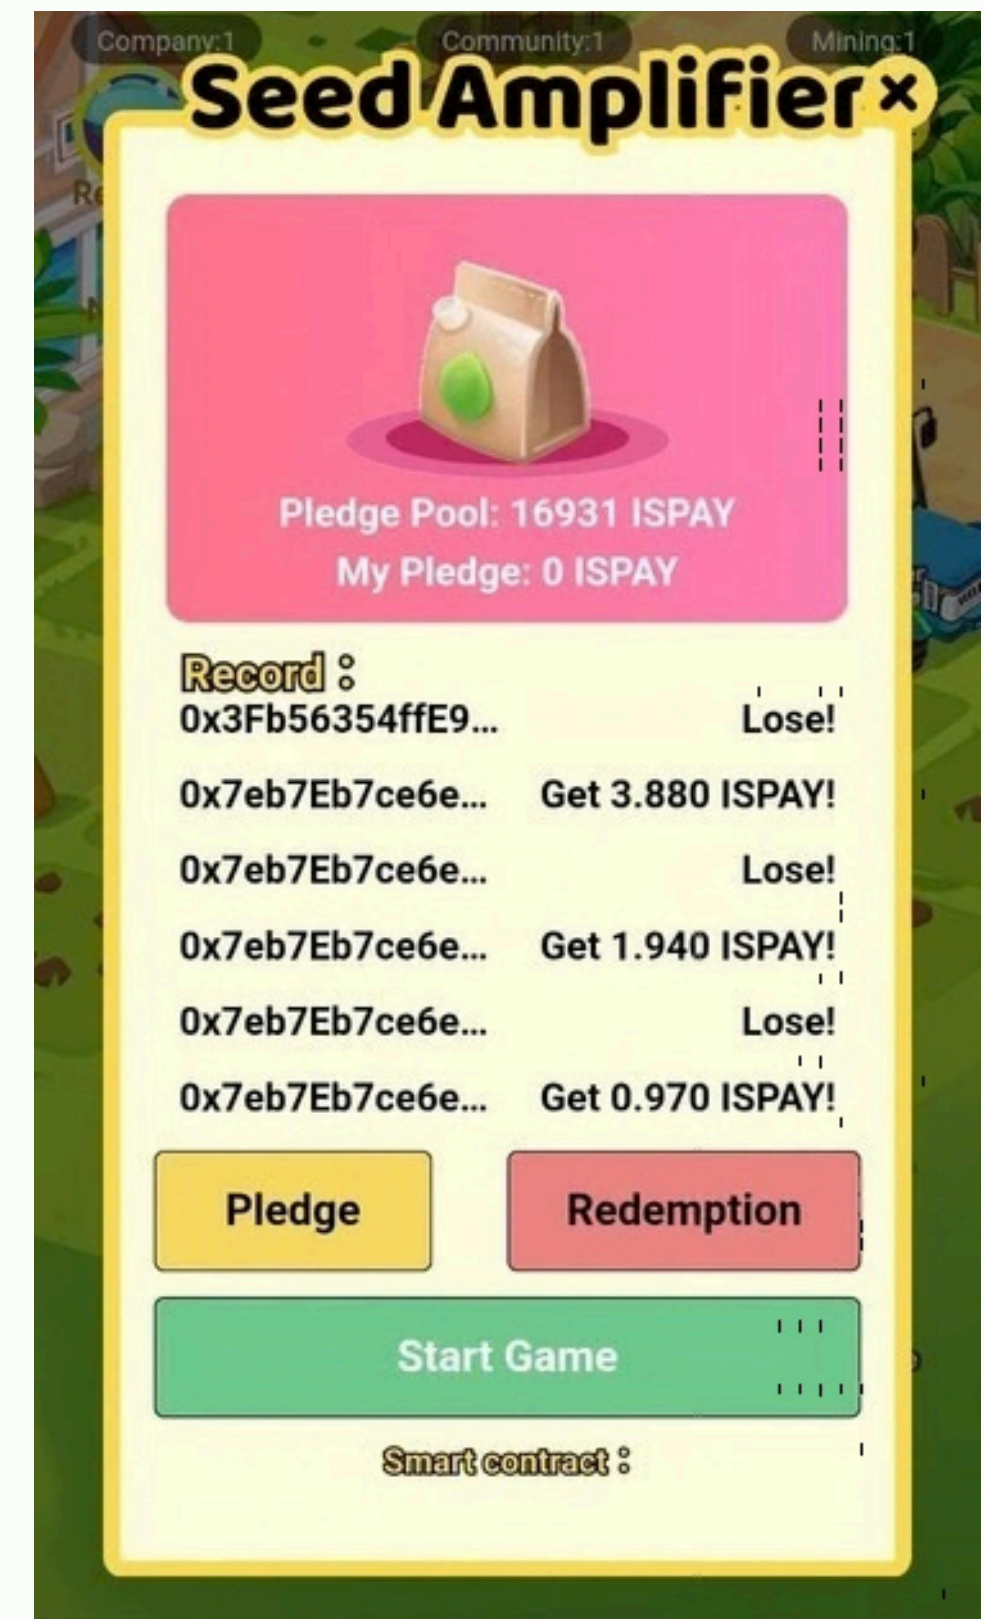

8. Seed Amplifier – Game Pool

The Seed Amplifier operates as a POS-based game pool mechanism.

Features:

- Players may act as pool bankers
- Players can stake funds into the pool
- Other players participate in win-loss gameplay outcomes
- Pool participants share rewards from gameplay results.

Gameplay Rules:

- 50% probability outcome model
- Successful outcome doubles reward value

Participation Limits:

- Minimum participation: 10 ISPAY
- Maximum participation: 200 ISPAY

This feature allows players to access higher risk-reward gameplay dynamics.

A screenshot of the "Seed Amplifier" game interface. At the top, it shows "Company: 1", "Community: 1", and "Mining: 1". The title "Seed Amplifier" is in a large, bold, yellow font with a close button (X). Below the title is a pink box containing an illustration of a brown paper bag with a green seed. Text below the bag reads "Pledge Pool: 16931 ISPAY" and "My Pledge: 0 ISPAY". A "Record" section lists several transactions with their outcomes: "0x3Fb56354ffE9... Lose!", "0x7eb7Eb7ce6e... Get 3.880 ISPAY!", "0x7eb7Eb7ce6e... Lose!", "0x7eb7Eb7ce6e... Get 1.940 ISPAY!", "0x7eb7Eb7ce6e... Lose!", and "0x7eb7Eb7ce6e... Get 0.970 ISPAY!". At the bottom, there are three buttons: a yellow "Pledge" button, a red "Redemption" button, and a green "Start Game" button. Below the buttons, it says "Smart contract :".

Smart contract :

9. ISPAY Staking

Users may stake ISPAY tokens within the DApp ecosystem.

Example:

Stake 10 ISPAY

If ISPAY price = 100 USDT

Total value = 1000 USDT

30-Day Reward Cycle

Maximum reward distribution example:

1,500 USDT equivalent

Daily distribution example:

$1,500 \div 30 = 50$ USDT per day

To continue participation:

- Users acquire additional ISPAY tokens
- Stake again in the DApp ecosystem
- Continue receiving reward distributions.

The screenshot shows the 'Granary' interface for staking ISPAY. At the top, it displays 'My ISPAY 10' and 'Today 0.015'. Below this is a text input field with the placeholder 'Please enter the amount'. A 'Balance: 0.1 ISPAY' is shown above a row of buttons for selecting a duration: 30, 60, 90, 120, and 360 days. The '30' button is currently selected. Below the buttons are two large yellow buttons labeled 'Confirm' and 'Redemption'. At the bottom, there is a 'Rules:' section with a green arrow icon, followed by explanatory text: 'Users can store ISPAY in the granary with a daily return of 0.3%, which can be redeemed at any time; Interest will accrue after 0:00 UTC+8 time on the next day after storage (D+1):'.

10. ISPAY Coin Utility

ISPAY Coin serves as the primary utility token within the Magic Crystal Farm ecosystem, supporting core platform activities including:

- Blind box participation
- Land NFT acquisition
- Gameplay item purchases (fertilizer, tools, pesticide)
- Gameplay pool participation
- Staking within the DApp

These functions create continuous token circulation and active ecosystem engagement.

11. Reward Balance and Token Sink

To support ecosystem sustainability, the platform implements ISPAY Coin-based token sink and reward balancing mechanisms through:

- Gameplay item purchases using ISPAY Coin
- Land NFT acquisition and upgrades using ISPAY Coin
- ISPAY Coin staking participation requirements
- Gameplay pool entry fees paid in ISPAY Coin

These mechanisms help manage ISPAY Coin circulation and maintain balanced reward distribution, with reward output dynamically adjusted based on platform activity and overall ecosystem conditions.

Terms & Conditions

Mandatory Daily Withdrawal: To maintain account active status and optimize returns, daily withdrawals are strictly mandatory, Please be advised that withdrawal must be completed daily. Any missed withdrawals do not roll over and cannot be added to the following day's balance.

Staking & Token Burn: Please be advised that all staked ISPay coins will be permanently burnt after a period of 30 days.

Tiered Profit Structure:

Guaranteed Profit: 25% to 30%

Minimum Profit : 50% to 60%

Maximum Profit: 100% to 150%

Compliance Guarantee: The profits mentioned above are guaranteed strictly upon full adherence to these Terms & Conditions.
